TAPE PRO 1060

High Temperature Masking Tape

TAPE PRO 1060

HIGH TEMPERATURE MASKING TAPE

TAPE PRO 1060 is a 110°C high temperature masking tape for automotive and industrial painting and coating applications. It sticks to a wide variety of surfaces, stays positioned and can be removed without leaving glue residue. It's high temperature resistance, very easy unwind and high conformability makes it the perfect choice for pipe coating applications.

FEATURES & BENEFITS

- Easy Unwind
- High Temp. Resistance
- Clean Removal

Technical Data:

Length:	50m
Widths available:	24 & 48 mm
Backing:	Saturated Semi Crepe Paper
Paper Weight:	65 g/m ²
Adhesive:	Natural Rubber
Total Thickness:	139 µm
Adhesion to Steel:	250 g/cm
Rolling Ball Tack:	1 cm
Tensile Strength:	4 KG/cm
Elongation at break:	7 %
Color:	Ivory
Temperature Resist.:	110°C for 1 hour
Removal Time:	5 days (interior)
Country of Origin:	Italy
